NAS-2259

PRODUCT DETAIL:

Whether you're trying to increase your max on a deadlift, take the strain off of an annoying injury, or better engage and isolate back muscles you'll feel an immediate difference when you use a great set of weight lifting hooks.

- ▶ **WELL SHAPED COATED HOOKS** -These fit perfectly around standard barbells, dumbbells, and machine attachments like lat pulldown bars. The heavy duty rubber coatings eliminate pinched fingers and slipping on the weight keeping them in the same position from the first rep to the last.
 - ▶ **CHOOSE BETWEEN OPEN OR CLOSED GRIP** - thick, fully adjustable pads cushion and support your wrist allowing you to open your hand and take the strain off of your grip (helps alleviate pain from tendinitis, golfer's elbow, and causes the weight to be transferred to larger back muscles instead of your grip and forearms).
 - ▶ **IMMEDIATELY INCREASE YOUR WEIGHT AND REPS** during deadlifts, shrugs, lat pulldowns, pullups, seated cable rows - any movements that target the posterior chain (back, traps, glutes, hamstrings).
- YOU WILL FEEL THE QUALITY ON THE FIRST REP
- ▶ Perfect for Crossfit, Powerlifting, Bodybuilding and Weight Lifting

NAS-2260

NAS-2267

PRODUCT DETAIL:

- **SMOOTH & FAST** - The ball bearing system in the handles and the polymer coated speed cable ensures you get the smoothest and fastest rotations. The jump rope cable is also 100% tangle free so you no longer have to untangle the rope ever!
- **FULLY ADJUSTABLE** - The quick cable length adjuster inside each foam handle means that the jump rope can be used by the entire family and training partners alike. The weighted cable supplied will suit heights between 5'0" to 6'8" for men, women and children.
- **MAXIMUM COMFORT** - The handles are light weight and coated with custom memory foam grips for extra comfort. The handles are also ergonomically shaped for long rope jumping sessions so you can get the most out of your workouts.

NAS-2275

NAS-2274

NAS-2276

NAS-2277

PRODUCT DETAIL:

Dual-ply knee supports designed to give your knees support, compression, warmth and performance. Made from an optimum blend of materials to give a high quality finish yet tough enough to handle anything you throw at them giving you maximum performance. The double layer gives great compression around the knee joints this will encourage blood flow through the blood vessels of the knee. This will result in less pain and swelling during and after performance of sports and exercise. The elasticated nature of our Dual-Ply Knee Sleeves gives a great stretch reflex and bounce from a squat position enabling you to get more reps or lift more weight. Sleeve adds warmth, limits patella movement, and can increase proprioception (the capacity to feel the position of a joint in space as sensed by the central nervous system). So our sleeves are more than a mechanical support mechanism for the joint, but is also used to improve proprioception!

NEOPRENE ELBOW SUPPORTS

PRODUCT DETAIL:

- **PHENOMENAL PROTECTION:** Kunto elbow braces apply even pressure across your elbow joint, which provides moderate relief from a variety of ailments including tendonitis, joint inflammation, tennis elbow, golf elbow, and other elbow pain. With our sleeves you'll be able to tackle any activity life throws your way, while ensuring you're a step ahead in injury prevention!
- **AMAZING UTILITY:** Our elbow supports are great for any activity requiring arm movement, including Tennis, Golf, Baseball, Basketball, Crossfit, Weightlifting / Powerlifting, and Volleyball. You'll be able to enjoy exceptional elbow support while still maintaining your peak performance and full range of arm motion!
- **INCREDIBLE CONSTRUCTION:** Our elbow sleeves are manufactured to provide superior support, comfort, and relief without compromising your mobility. Tight, form fitting and breathable compression fabric maintains joint stability regardless of activity while avoiding the itchiness common to neoprene supports. Now you can enjoy premium elbow support without loss of performance or discomfort, allowing for hours of continuous use!
- **TRUE FIT (NO SLIP)** -Whether you've got meaty arms, or are a little bit slender, we've got a fit for you! It's really the most important thing, isn't it? Having a fit that doesn't slide down your arm, but also doesn't give you the dreaded "muffin" is something that should be a given, but with other brands, sadly, sometimes it isn't. Our fabric weave provides the perfect form fit around your elbow, allowing you to benefit from support without suffering from sleeves that are too constricting.
